

## **IN THE WRITTEN DESCRIPTION**

On page 1 after the title, and the following new heading and paragraph:

### **CROSS-REFERENCE TO RELATED APPLICATIONS**

This patent is a division of U.S. Patent Application No. 09/893,397 filed on June 29, 2001, now pending, which is incorporated herein by reference in its entirety.

Delete the current abstract (eleven paragraphs on pages 30 and 31 of the specification) and replace with:

A film transfer tool which allows a transfer head to be disposed in any of the spaces between letters of normally used word processors for implementation of a smooth transfer operation of film and a method of making the same are disclosed. A feed reel 2 and a take-up reel 3 are adapted to interlock with each other and are disposed within a case 1. A film transfer tape a is fed out from the feed reel 2 to be moved along the surface of a paper S while being pressed thereagainst by a transfer head 4 protruding from the case 1, and is then taken up by the take-up reel 3 as a tape from which film has been transferred.
